Dog Snuffle Mats - A Stimulating & Enriching Activity for Dogs

Snuffle Mats In Stock Now @ A Dog's Best Life

Snuffle mats are an excellent interactive mental stimulation activity for dogs, consisting of a variety of hiding spots for your dog's food that they then have to sniff out.

Encouraging your dog to use their greatest sense - that of smell - is wonderfully satisfying and rewarding for your dog.

Snuffle mats also help with fast-eaters, feed your dog's daily meal of dry food or kibble via the snuffle mat and they are forced to eat slowly, as well as work their brain!

Our snuffle mats are made from a fleece material with a rubber backing to help stop the mat sliding around on the floor too much.

The mats are machine-washable for easy cleaning if your pooch has left it covered in drool! We recommend a gentle spin and then air dry your mat, do not tumble dry.

As with all dog toys and games, please supervise your dog while they are using the snuffle mat and take the mat away once they are finished.

We currently have 5 different snuffle mat designs to choose from and each mat comes folded in a reusable zip lock bag for easy storage.

All styles are currently in stock and ready for despatch. We ship Australia-wide from our Melbourne location with regular or express post options available, order by 3pm for same day despatch.

We also stock a range of dog treats and dry food ideal for use with the snuffle mats.

Shop our range of dog snuffle mats now at www.adogsbestlife.com.au
