

## Dowell Solutions now offer Certificate IV in Training and Assessment (TAE40110) Course

Dowell Solutions is excited to announce that we have again added to our training repertoire and can now provide the new Certificate IV in Training and Assessment (TAE40110) course.

This nationally accredited course can be delivered in several different modes, including face to face over 10 days, via distance learning/correspondence or a combination of both, with the option to upgrade from the previous Certificate IV in Training and Assessment (TAA40104).

The distance learning/correspondence delivery option is at the very reasonable cost of \$1,295.00.

The new Certificate IV in Training and Assessment (TAE40110) is the qualification required by trainers and assessors to teach and assess in TAFE and private Registered Training Organisations (RTOs).

The course includes 10 units covering design, delivery and assessment. It is very interactive and would benefit anyone who has a component of delivering training or assessment within their position or daily tasks.
