

According to Justine Wilson, leading Property Stylist and Founder of Vault Interiors, holiday decorating is not just for Halloween or Christmas! Justine believes Easter is just as important when it comes to styling the home for special occasions and one that has been overlooked in the past. Easter 2021 is all about pastels, florals, bunnies and eggs. “These icons are all associated with the holiday season, so why not enjoy bringing them into your home and creating whimsical displays. You can style up a storm, and easily create a magical experience to share the holiday with friends and family,” said Justine. Justine's top five tips for styling your home this Easter include: 1. Faux florals: These are inexpensive and can be found at any hobby store, variety store or dollar shop. For Easter, I like to select soft blues, pinks, and whites so the display feels like a spring day! These have a big impact and are easy to install, I use faux florals on my tablescape, on my stairwell, and as a filler for any other key vignettes. They often bend easily and require no fastening other than wrapping or manipulating them into the shape you require. 2. Bunnies: It wouldn't be Easter without some cute bunnies, these figurines can be sourced at target, Kmart, homewares shops, or at places like TK Maxx. I have all different sizes and shapes, from grass look ones, to pretty glass ones, and simple ceramic ones. They create pretty displays and can be styled on any surface. 3. Eggs: From glass eggs, grass eggs, foam eggs and even wooden, or my favourite – chocolate eggs! It doesn't matter which you choose, however by integrating some eggs it's an easy and fun way to bring the Easter look to life. They can be used for entryway vignettes, kitchen clusters or in main tablescapes to really signify and celebrate the holiday. 4. Don't focus on one area: With seasonal styling is best to have little pops of décor all over the home for a magical experience for your family and your guests. I like to have an Easter wreath on the door, something on the stairs, some décor in the kitchen as well as the living and dining rooms. 5. Use pretty food as part of your display! This could be sugared almonds, candies, easter eggs, cupcakes or cakes or really any tasty treat that suits the theme. Decorating with food is a wonderful way to jazz up your table and of course delight your guests. “Remember, any key entertaining areas of your home are great places to decorate. If you continue the styling theme throughout your home - you will create more of an event-like experience!” adds Justine. For more styling tips go to: www.vaultinteriors.com.au
