

EcoTools, the leader in eco-conscious beauty products, most notably known for their incredibly soft cosmetic brushes, is excited to launch their new range of spa and body essentials. The new facial and body cleansing accessories are the perfect way to look and live beautifully this winter, and are available now from www.ecotools.com.au. Erica Galea, Chemcorp International Marketing Director, the local distributors of EcoTools says, "The new range of spa and body products are a great addition to the EcoTools range and further enhance the DIY at-home beauty experience. "The new products now offer users the opportunity to create their own, eco-friendly at-home day spa which can be used in conjunction with their regular cleansing and exfoliating products or by creating their own home-made masks and scrubs," said Erica. The new products in the range include:

EcoTools Deep Cleansing Brush – RRP \$12.95: This soft bristle brush delivers a deep skin cleanse by not only helping the skin looked polished at a surface level but reduces congestion and pore size. Simply use the brush whilst damp, apply cleanser and exfoliate the skin using circular motions. Available in pink, green and grey.

EcoTools Charcoal Infused Bath Cloth – RRP \$12.95: Made with recycled fibres and designed with bamboo charcoal to help purify, enrich and restore balance back into the skin, this 100% vegan and latex free woven cleansing cloth gently exfoliates the skin. Use whilst wet and apply cleansing product.

EcoTools Facial Konjac Sponge – RRP \$12.95: The new Facial Konjac Sponge cleanses and exfoliates in one simple step, giving the skin a smooth and glowing look, without the harsh irritation of a physical scrub. Designed with natural root vegetable fibre to gently remove dirt, oil and makeup, dampen the sponge, apply cleanser and use circular motions to lift and remove makeup.

EcoTools Polishing Facial Cloths – RRP \$11.99: These muslin polishing facial cloths are designed with organic cotton to remove dirt, oil and makeup for fresh and revived skin. To use, apply and massage cleanser onto face as usual, run the cloth under warm water and lightly wring out, then use the cloth to wipe away the cleanser. Rinse and repeat as needed.

All EcoTools products are available online now at www.ecotools.com.au. About EcoTools: Founded over a decade ago, EcoTools has always been passionate about the use of sustainable materials. Each makeup brush is made from bamboo and recycled aluminium, with cruelty-free synthetic bristles. The packaging has been constructed using tree-free paper and vegetable-based inks. And, with every new product innovation, the brand endeavours to further reduce its carbon footprint. EcoTools believe that when an individual truly feels beautiful, the world becomes a more beautiful place.
