

Elucidate Re-Brands

Elucidate Software rebrands Nipplus Systems suite of software products : eCAPEX, ePO, eIntegration and eSeries5

Nipplus Systems is now Elucidate Software. After 12 years providing bespoke business software, this re-brand represents a major overhaul of the company's software offering and service delivery methodology. This rebrand means the "e" in the eseries software suite of eCAPEX, ePO, eIntegration and eSeries5 have now been consolidated into a single platform - Elucidate Software.

The core financial accounting, project management and CRM features in eSeries5 have been carried into Elucidate Software and the re-design now includes a complete overhaul of the user interface to a responsive design. New features include addition of various collaborative tools together with business intelligence and data visualisation capability.

Elucidate is now available in 20 languages including Spanish and Chinese variants.

At a rebrand lunch ceremony in Sydney, Australia, Jeneby Mathews - Elucidate CEO, said the company will continue to support the brand with qualified consultants and project managers whose primary focus will remain our client's project success and business stakeholder satisfaction. We aim to be a great software and consulting company and first choice for clients, investors and our staff.
