

## Endovision Stocks Powerful Sunoptics Headlights

Endovision offer LED headlights and Xenon Headlight Systems from Sunoptics for medical and dental surgeons.

Endovision offer LED headlights and Xenon Headlight Systems from Sunoptics for medical and dental surgeons. These headlights are simple in design and are easy to clean. Considered to be top of the range, the LED 5500 Battery-Operated headlight is Sunoptic Surgical's first low-cost LED headlight.

It features a wireless design with no remote battery packs or cables. The battery is attached to the headband which allows for easy replacement during surgery. The wireless design also allows unlimited mobility for the surgeon in the operating room. The LED-5500 is simple in design, light in colour to allow for visualisation of any debris or blood splatter and is easy to clean.

Sunoptics Surgical SSL-9500 LED Headlight offers portability, quality light and brightness to match. It delivers 70,000 LUX of bright white light needed for surgical procedures.

The LED light provides the surgeon with a homogenous spot for true tissue colour recognition. The battery powered LED headlight offers the freedom from being tethered to a light source by a fibreoptic cable. The RCS headband and the lightweight LED module provide stability as well as comfort. The headband is lightweight and comfortable. The 10w LED offers the BRIGHTEST Illumination available. It has a lightweight battery and clip on holster that provides three hours of continuous use.

The Sunoptic Surgical LED-9500 provides 50% more light and the quality of the light appearing in the spot is unmatched in any other LED on the market. The LED-9500 features even distribution of its all white light, eliminating the unusable brown and yellow edges seen in other LEDs. With the spot size expanded to 110mm the LED-9500 now has a spot size to compete with any other brand. In keeping with the new industry expectation the Sunoptic Surgical LED-9500 Headlight is simple in design, light in colour to allow for visualisation of any debris or blood splatter and is easy to clean.

Sunoptic Surgical is a leader in the surgical market place, offering a premium advanced technology line of products; surgical headlights, Xenon and LED lightsources, video cameras, documentation/ recording devices, fiberoptic cables and a full array of accessories. Endovision brings the latest innovations and technology within the medical and surgical field to the Australian market.
