

Epson's SureColor SC-P7500 and SureColor SC-P9500 series (SC-P7560 and SC-P9560 in Australia and New Zealand) large-format printers have been named iF Design Award 2020 winners by iF International Forum Design. Created in 1953, the iF Design Award is recognised around the world as one of the most prestigious awards for innovative industrial product design excellence. Products are evaluated based on a wide range of criteria, including practicability, workmanship, consideration of environmental standards, degree of elaboration and innovation, functionality, usability, safety, aesthetics, and universal design. This year's winners were selected from 7298 entries from 56 countries and regions by a 78-member jury comprised of experts from around the world. Details of the award winning Epson products: SureColor SC-P7500 and SureColor SC-P9500 Series Adding to the SureColor SC-P9000 series, regarded highly as the industry standards for reproducing high-quality images in fine art, proofing, and photo laboratories, these products provide the functional operability of high-quality professional tools, such as internal lighting to immediately check printed material and a neutral colour that does not interfere when making colour adjustments.
