

Family villas a new haven for guests at White Grass Ocean Resort & Spa - Tanna Vanuatu

A sanctuary of luxurious accommodation, first class service and idyllic surrounds to unwind in following a day hiking up a volcano or diving the Blue Cave

Family villas a new haven for guests at White Grass Ocean Resort & Spa

'A sanctuary of luxurious accommodation, first class service and idyllic surrounds to unwind in following a day hiking up a volcano or diving the Blue Cave.'

June 2019: Grass Ocean Resort & Spa on Tanna Island, Vanuatu has recently introduced three new family villas to its range of guest accommodation. The two bedroom, two ensuite, plantation-style villas also include a kitchenette, dining area, lounge and large verandahs. Designed with every creature comfort for a family of up to four, the new villas feature furniture crafted from local hardwood, designer soft furnishings, ceiling fans, ceramic tile floors, laundry facilities, Wi-Fi and more.

White Grass Ocean Resort & Spa is home to the only PADI certified diving operation, Volcano Island Divers, on Tanna Island. Local dive spots are renowned for their coral and lava formations, abundant marine life (including Caverns turtles, whales and dugong) and exceptional water quality.

Tanna Island is one of the southernmost islands of the Vanuatu archipelago and is blessed with some of the South Pacific's most beautiful beaches. White Grass Ocean Resort & Spa has direct access to reef edge and inner reef pool snorkelling. Resort facilities also include a swimming pool, pitch 'n putt golf course, petanque (bocce) field, bicycles, guest library, and the Nabisa Day Spa. Housed in an open bure with uninterrupted coastal views, the Nabisa Day Spa offers a range of indulgent treatments, including its signature Volcanic Hot Stone Massage, using natural products such as the local organic coconut oil.

Food at White Grass is fresh, seasonal and sustainable. The restaurant serves seafood, including lobster, wahu, yellow fin tuna, poulet, marlin and mahi mahi, pulled from the ocean in front of the resort. Fresh Locally farmed prawns and Vanuatu beef are flown in several times each week. Local markets and growers supply organic vegetables, fruit and nuts grown in the island's rich volcanic soil. Whitegrass chefs are local Ni-Vanuatu people who are passionate about the local produce and use their skills and expertise to create memorable meals every day.

Once in a lifetime adventures are a wonderful way to work up an appetite. For example, the resort's Blue Cave experience begins with a 20-minute coastal journey. Once at the Blue Cave, visitors are invited to duck dive through an opening where the cliff meets the sea and emerge into a magical cave, illuminated only by a shaft of light from a hole in the cave ceiling.

Guests can also experience the world's most accessible active volcano. After a 1.5 hour 4WD journey through dense jungle, mountain villages and ash plains to the base of the volcano, guests walk up the face of Mount Yasur to the volcano rim while witnessing its frequent eruptions.

Euan Marsh, owner of White Grass Ocean Resort & Spa, says: 'White Grass Ocean Resort & Spa provides our guests with rare access to Tanna Island's unique village culture and raw, once in a life time, adventure experiences. Our resort has been designed in response to this, and provides a sanctuary of luxurious accommodation, first class service and idyllic surrounds to unwind in following a day hiking up a volcano or diving the blue cave.'

White Grass Ocean Resort & Spa is located just 2km from Tanna Airport, which is a short flight from Port Vila. Resort staff welcome every guest at the airport before whisking them away to their holiday island home.

Accommodation (including tropical breakfast) in the new family villas starts from around \$400 AUD per night (42000VUV per night for a villa)
