

Flexnet appointed Mitel platinum partner

Flexnet, a leading Victorian Mitel IP communications integrator, has been elevated to Mitel platinum partner status.

The appointment means Flexnet joins an exclusive group of six Australian Mitel partners on their top tier partner program.

“Platinum level partners attain this status thanks to their unparalleled technology expertise, combined with excellent customer service and success in offering our products. Flexnet has consistently met all of our platinum partner criteria, and their customers can benefit greatly from the enhanced expertise and experience this accreditation bestows,” said Frank Skiffington, APAC Regional VP Sales, Mitel.

Flexnet now gains additional access to advanced Mitel training and products to better serve its SME and Enterprise customers.

“Achieving Mitel platinum partner status recognises that Flexnet consistently provides innovative and relevant solutions in an increasingly challenging landscape. It also assures our clients that they have partnered with a company which continues to strive to improve to be the best,” said Kevin Valles, General Manager at Flexnet.

“Our strong ability to bring to the market the variety of solutions in on-premise, cloud or hybrid platforms means we continue to be a reliable partner, especially in these unpredictable times,” said Valles.

Who is Flexnet

Flexnet are Victoria's premier Mitel provider. Formed in 2001, Flexnet has a wealth of communications experience. We offer only the most trusted products and professional services to our clients, which is why we are delighted to be a Mitel platinum partner. Our partnership with Mitel enables us to provide cutting edge PBX phone systems and unified communication solutions to organisations throughout Australia and New Zealand.
