

Register today and recycle your IT equipment

ECOACTIV Product Recovery programs help to ensure that we collect and recycle unwanted IT equipment so that materials can be reused in the manufacture of new products. Some older IT equipment can also contain hazardous substances and we need to make sure that these are safely managed in an environmentally sound manner.

What can be collected and recycled for free?

The following types of IT equipment are covered by the service:

LCD/FLAT/CRT Monitors Laptops/PC/Desktop/Tower Servers/ Copiers/Fax machines/Printers Cabinet Servers/ Uninterruptible Power Supply (UPS) Phone (Desk & Mobiles including accessories) Miscellaneous IT waste Locations covered – Melbourne, Sydney, Brisbane

Metropolitan Melbourne, Sydney and Brisbane are covered by this service. If you fall outside these areas, please contact us to confirm whether we can help. Call the ECOACTIV helpdesk: 1800 489 278

Who can register for this free service?

The ECOACTIV free IT equipment collection and recycling service is open to small, medium and large companies, retailers, government agencies, public institutions, healthcare related organisations, NGOs and not-for-profits.

Time is limited so register today

This offer is for a limited time and the deadline for Stage 1 collections ends soon.

What happens to your IT equipment and reporting

All IT equipment, mobile phones and accessories will be recycled by a specialist e-waste recycler with more than 90% of the materials recovered. The recycler's Environmental Management System is independently certified to ISO14001 and R2, and audited to AS/NZS 5377:2013. Nothing is resold or reused.

Next steps
