

# FREIGHTLANCER.COM MOVES 3 GIANT CATERPILLAR DUMP TRUCKS FROM ORANGE TO ROCKHAMPTON !

FREIGHTLANCER.COM ARE GREAT AT HOT SHOTS FOR MINING COMPANIES!

HOW DO YOU MOVE 3 GIANT CATERPILLAR DUMP TRUCKS FROM ORANGE TO ROCKHAMPTON ?

This is NOT a joke .....it's a real life problem for Josh Mullens and his team at Freightlancer.com .They had to move 200 tonnes of mining equipment in the shape of 3 giant Caterpillar dump trucks, one of the world's largest dump trucks, from country NSW to Far North Queensland. They did it by dismantling the trucks into two parts, removing the wheels and with police escorts moved them one at a time, each trip taking 8 days. Mission Impossible? Mission Accomplished!

Josh Mullens, Freightlancer CEO says "Freightlancer processes millions of dollars' worth of jobs as we truck, ship and move anything and everything all over Australia and all over the world by crowdsourcing through our 6,500 transport companies and 30,000 trucks as well as having access to movers all over the planet ....and access to our parent company Freelancer.com (ASX:FLN) with their 32 million strong army of freelancers worldwide. We have the ability to move anything, anywhere at any time from Manly to Madagascar, from Rio Tinto to Rio de Janeiro, from West Australia to the West Indies and everywhere in between.

Freightlancer.com is a bit like Deliveroo for truckies except every order is checked by a member of our staff to ensure all the paperwork, details, logistics are correct!"

" We service the mining, construction, tunnelling, rail, oil and gas industries and are great at HOT SHOTS! These are not the latest alcoholic liqueurs, HOT SHOTS are known in the mining industry for when a piece of equipment breaks down and its costing \$10,000 an hour or \$100,000 a day in lost production unless the piece of equipment is replaced quickly. We specialise in freighting HOT SHOTS equipment nationally and globally with smart solutions for saving money on the transport costs. A recent HOT SHOT saw us truck a piece of equipment from Perth to Orange at half price by getting a truck to leave from Perth and meet another truck half way that came from Orange!"
