

## Fuji Xerox Printers Goes Back to Black

Phaser 3124 and Phaser 3125/N makes printing in monochrome easy and affordable

AUSTRALIA, Sydney – 1 December 2008 - Fuji Xerox Printers today announced the release of the Phaser 3124 and Phaser 3125/N, monochrome laser printers that combine performance, ease of use and quality output at an affordable price. Designed for personal use, small office/home office (SOHO) and small workgroups, these printers have been designed with the environment in mind with an N-up feature which allows users to print multiple pages on a single sheet to save paper, toner and money. The Phaser 3124 and Phaser 3125/N are Energy Star compliant and have power save modes to reduce the overall energy consumption. These power packed printers allow users to tackle more projects with productivity features such as the ability to print posters or booklets, scaling a print job to any paper size and watermark features. An overlay allows users to print text and/or images stored on a PC on preprinted forms and letterhead. The Phaser 3124 and 3125/N has a 250-sheet paper tray that supports large print jobs and printing on a wide range of media. Tom Lewis, Marketing Manager of Fuji Xerox Printers Australia and New Zealand said, "The Phaser 3124 and Phaser 3125/N is ideal for home or office users who are looking to replace an existing inkjet device with an affordable laser printer. Some key features in the Phaser 3124 and Phaser 3125/N include: Light weight with small footprint Monochrome output at speeds of 24 pages per minute First Page Time Out of 9 seconds Razor sharp output of up to 1200 x 600 dpi (Phaser 3124) and 1200 x 1200 dpi (Phaser 3125/N) Memory of 8MB (Phaser 3124) or 32MB (Phaser 3125/N) USB 1.1 (Phaser 3124) or Ethernet 10/100Base-TX and USB 2.0 (Phaser 3125/N) The Phaser 3124 and Phaser 3125/N is available immediately at recommended retail prices of AU\$179 and AU\$299 including GST respectively through authorised resellers.
