

Full Garbage & Waste Collection for Eastern Suburbs Region

Mr Cheap Rubbish Removal has Sydney's Eastern Suburbs covered.

Mr Cheap Rubbish Removal now covers all suburbs within the Eastern Suburbs region of Sydney and expanding services to e-waste collection.

Mr Cheap Rubbish Removal is a rubbish removal company that started in the Western Suburbs of Sydney, and slowly expanded into other regions of Sydney. Today Mr Cheap Rubbish Removal is focused on offering a faster services and picking up what the councils will not.

There are three popular council areas for free pickup in the Eastern Suburbs: Waverly, Woollahra and Randwick. All councils list a range of items they do and do not pickup. There is a common misconception within the general public that the council will, and must, pick up any overflow of garbage, which is not the case. It is your responsibility to dispose of items legally, or it may be considered dumping where you're issued a fine.

Mr Cheap Rubbish Removal has recognised there is an overflow of items to be removed, especially around suburbs with a fast turnover in population such as Bondi Beach, Coogee and Randwick.

"We've studied the Eastern Suburbs and identified where services will be required. We're really looking forward to seeing the transformation Sydney's Eastern Suburbs is going through."
