

getNEXT Partners with AWS to Transform Your Business into the Cloud

getNEXT has been an AWS Consulting partner for over 6 years. With AWS ecosystem expertise, professional accreditations and certifications, we help our customers to take advantage of AWS, the world's leading cloud-computing platform.

Being part of the AWS Partner Network, getNEXT recognises that cloud computing offers tremendous opportunities for business customers in terms of cost management and innovation.

With our well-designed products, we help our customers in property, health, government agencies, architecture, legal services and financial services in developing the flexibility, scalability and reliability required to remain competitive in today's business environment.

As moving to the Cloud, getNEXT's customers have realised the ability to:

1. Reduce Costs & Improve ROI
2. Scale Globally in Minutes
3. Accelerate Time to Business Value
4. Differentiate through Increased Innovation
5. Streamline and Improve Operational Efficiency
6. Reduce Capital Expense and Operational Expense

We are now even better equipped to deliver best-in-class solutions for AWS - from product migration to app development and everything in between. Check our product to know more about our cloud solutions.
