

GIS People Wins Spot on South Australian Panel

GIS People's reach across Australia is expanding fast. They have just been accepted onto the South Australia Science, Monitoring and Knowledge (SMK) Professional Services Panel. Run by the SA state government Department of Environment, Water and Natural Resources, the panel allows GIS People to provide its expert consulting services to all branches of this department.

GIS People offers services under the SMK Panel's 'Data and Information Services' category. This includes:

- GIS Editing
- Cartography support
- GIS analysis
- Business analysis and system design
- Project or system design
- Training
- Image capture

Visit www.gispeople.com.au to find out more about GIS People's expertise in these areas.

Over the past 3 months GIS People has also gained places on panels in Victoria and New South Wales, assisting with their quest to expand their customer base and engage with clients all across Australia.
