

Gold Coast's prominent hypnotherapy practice, Moving Minds Hypnotherapy wins the 2021 ThreeBestRated® award

Gold Coast 19/02/2021 - Moving Minds Hypnotherapy, one of the most sought after hypnotherapy practices in Gold Coast, Queensland, has won the prestigious 2021 ThreeBestRated® award. Moving Minds Hypnotherapy has been a recipient of this award for more than four times. Each year ThreeBestRated® review team conducts a rigorous 50-point inspection to rate and list the top three hypnotherapy practices on their website. Reviews, ratings, reputation, history, complaints, satisfaction, trust, cost, general excellence, etc., of the hypnotherapy practice, are evaluated using the 50-point inspection before honouring them with the award.

"We are very proud to say we have been recognised on the 'ThreeBestRated®' website's list since 2017 and are sitting in the first position, for the last three years. Many people self-proclaim to be the best. But to be acknowledged by an independent, non-biased agency who also has the intention of serving the public is something we take great pride in.", said Greg Thompson, founder of Moving Minds Hypnotherapy.

Moving Minds Hypnotherapy's achievement of being the best didn't happen overnight. Their remarkable journey started in 2015. Greg Thompson, the lead hypnotherapist, established Moving Minds Hypnotherapy with an aim to serve the needs of the communities of Gold Coast through hypnosis. Over the years, Greg has helped thousands of people with anxiety, depression, and weight-loss, as well as habits and addictions such as smoking, alcohol, and drugs. Greg has led his clinic to grow into a trusted practice to overcome emotional and behavioural issues.

The Team

In 2020, Greg Thompson added two additional hypnotherapists to his team. Both of which are trained to the highest standards. They are accredited by both the Australian Hypnotherapists Association (AHA) and The Hypnotherapy Council of Australia (HCA). The team of professionals continues to be mentored by Greg in the practice of helping people heal, grow, and overcome limiting beliefs and behaviours.

All of their team members at Moving Minds Hypnotherapy are fascinated with the power of the mind and are passionate about being a force for good in the world. They said, "We feel lucky to be the people that can facilitate positive changes that often feel impossible for our clients. To see someone walk into our office crippled by anxiety or depression and has tried absolutely everything else to no avail, leave our office only an hour later, totally transformed. There are no words to describe the appreciation we feel in knowing that this is the work we do!"

The Moving Minds hypnotherapists understand that everyone is different and so they tailor-adjust traditional clinical hypnotherapy and conversational hypnotherapy to get the absolute best result for their clients. They are transforming the lives of so many people across Australia through hypnosis.
