

Greentree Announces unique opportunity for an Australian Business to win a complete Business Management & Accounting System worth up to \$250k

Star Business Solutions, Greentree's partner of the year, gets behind Greentree's newest initiative.

Greentree International has created a competition that will provide a fantastic boost for one Australian company or organisation.

Greentree are looking for a real gem that could be amazingly successful, if only their lack of a modern business system wasn't getting in the way. The winner may be a company that has struggled through one of the recent disasters or may be a company that hasn't been able to achieve its true potential due to the recession.

This competition is unique; whilst other IT companies have given away software before, they have left the winners to try and figure out how to use it or made them pay for the implementation and other associated costs. The scale of this giveaway is much more than just a 'giveaway'. It is a fully implemented software system complete with (if required) free hosting services for up to two years. It really is the full make-over.

Due to the serious nature of this competition, there will be a high profile judging panel presiding over the decision. This panel will encompass judges from various different sectors, each contributing different skills and knowledge to ensure the best candidate is chosen.

The prize on offer is a complete new business solution:

- \$125,000 Greentree software
- \$75,000 Partner Services
- 1-2 years Cloud hosting

Greentree have made it relatively easy for businesses and organisations to enter. Only basic business information is requested on the entry forms. To enter into the competition, companies will be able to apply online, with your objective to make the most compelling argument for why you should get the complete solution within a couple of paragraphs. Supplementary information such as videos etc is allowed.

We at Star Business Solutions, Greentree's 2011 Australian Partner of the Year, would encourage you to enter this unique competition. Please also encourage all of you, your business associates, colleagues and clients to also enter. If we can assist you with the entry process I would encourage you to contact Star Business Solutions direct.

Enter at <http://www.greentreegameon.com.au/>

Entries open 1st September 2011.

Entries close 31st October 2011.
