

Infoblox Appoints Kenneth Cartwright as Head of Channels – ANZ

New appointment extends Infoblox's leading position in secure cloud-managed network services throughout the region

Sydney – May 14, 2019 – Infoblox Inc., the leader in DNS, DHCP, IP address management (DDI) and secure cloud-managed network services, today announced that it has appointed Kenneth Cartwright as head of channels for Australia and New Zealand (ANZ). Based in Sydney, Cartwright is responsible for executing Infoblox's channel go-to-market strategy across both countries, to support an increasing number of businesses that are adopting the company's network control services. "ANZ is an important market for Infoblox as we continue to extend our leading position in DDI and secure cloud-managed network services," said Hwa Cheong Wong, vice president of sales for Infoblox in Asia Pacific and Japan. "Kenneth's demonstrated leadership, sales and channel skills naturally align with Infoblox's commitment to help businesses in ANZ safeguard their networks, data and applications." Cartwright has over 24 years of experience in the IT channel, with a varied career across distribution, as well as infrastructure and security vendors in the UK and Australia. Prior to joining Infoblox, Cartwright was distribution and channel account manager for FireEye, where he managed the company's partners across Australia. Before that, he held a variety of channel and sales roles with Aerohive Networks, Brocade Communications, Ruckus Wireless, Clarity Technology, Extricom and Azlan Group. "As organisations transition from legacy networks to the cloud, secure cloud-managed network services are becoming the clear way forward, bringing next-level security, reliability and automation to on-premises, cloud and hybrid networks," said Cartwright. "Infoblox is committed to working with our ANZ partners and customers in the best possible way to empower them to have advanced network control and protection without impacting their day-to-day operations." About Infoblox Infoblox is leading the way to next-level DDI with its Secure Cloud-Managed Network Services. Infoblox brings next-level security, reliability, and automation to on-premises, cloud and hybrid networks, setting customers on a path to a single pane of glass for network management. Infoblox is a recognised leader with 50 percent market share comprised of 8,000 customers worldwide, including 350 of the Fortune 500. Learn more at www.infoblox.com
