

Interview: South Australian Deanna Lush has her sight set on winning the national title of 2019 AgriFutures Rural Women's Award in Canberra

Hello With less than six weeks to go until the 2019 AgriFutures Rural Women's Award recipient is announced, South Australian Deanna Lush is preparing to head to Canberra next month to see if she can also scoop the national title. Deanna is available to talk about her work involving establishing a network of ag specialists who have the tools, knowledge and confidence to engage with non-agricultural audiences. Ms Lush will use her Westpac bursary to increase awareness of the need to build trust and provide training and mentoring to producers, helping them to engage and communicate with these audiences. Please find attached further information about Deanna and the AgriFutures Rural Women's Award. Supporting high res and low res images are available to download via: <https://spaces.hightail.com/space/e7lwtLgeZ>. I look forward to your feedback. Regards,
