

Ionmax announces latest innovation - multifunctional ultrasonic aroma diffuser, the Serene ION138

Multifunctional with LED clock, alarm, timer, and a gorgeous colour changing base, the Ionmax Serene works great as an aromatherapy night light for the home and the kids' room.

Melbourne, Australia – September 22, 2015 – Andatech director, Irwandy Tan, today announced the arrival of the highly anticipated Ionmax Serene ION138 Ultrasonic Aroma Diffuser. The ION138 will be the newest aroma diffuser to the Andatech / Ionmax health and wellness family. “We have been getting a lot of enquiries from customers, wondering whether we have reintroduced the aroma diffuser back into the Ionmax family yet. In truth we have been listening to feedback and working to introduce the perfect product for customers.” said Tan.

“A product like the ION138 is more than simply an aroma diffuser, it is also an ioniser and a humidifier, plus it can help you relax. The fact that it can also make your home smell nice is just icing on the cake.”

The Ionmax Serene ION138 is a highly efficient ultrasonic aroma diffuser inside a compact and lightweight design. It produces enough moisture to help you improve the humidity levels in your house and is light enough to move anywhere in the home or office.

The Ionmax Serene integrates state-of-the-art design and technology, including a built-in ioniser that produces negative ions like those found at beaches and waterfalls, and a built-in humidifier that reintroduces moisture into the air, to help you maintain a more comfortable home.

Featuring an LED time display, alarm clock, and timer functions, the Ionmax Serene is easy and convenient to use around your home. Simply add a couple of drops of your favourite essential oils into the water and effortlessly transform your house into your own personal oasis.

Availability The Ionmax Serene ION138 Ultrasonic Aroma Diffuser is available now for order online at www.andatech.com.au.

Alternatively consumers can call Andatech in Australia on 1300 800 200 or worldwide on (+613) 8899 6900.
