

Jasco Consulting and Vercilia announce strategic partnership to streamline organisational workflow

Press Release

Jasco Consulting and Vercilia announce strategic partnership to streamline organisational workflow.

Jasco Consulting and Vercilia are pleased to announce that they have entered a strategic partnership that combines Jasco's leading IT consulting services with Vercilia's strategy-led custom business app development services.

With increased demand for innovation within customisation in day-to-day business operations, companies recognise that they need to streamline the development of processes that optimise their workflow. The Jasco-Vercilia partnership fills the gap in the market, bringing together years of experience in business, strategic consulting, efficient developing, seamless deployment and change management to assist workplace transition amongst their customers.

This new-found partnership means that customers can better automate and streamline their business processes from SharePoint Online packaged deployments, turbo charging collaboration with Microsoft Teams & OneDrive. As well as allow them to automate complex business processes, unlocking data to Power Apps, Flow and Power BI.

"Partnering with Vercilia to deliver transformation for our clients will allow us to design, build and provide the best strategies for businesses." Says Jason McClintock, CEO of Jasco. "Together, working as one team, we will unlock the full potential of digital transformations and place our customers on the best path for success in the new digital business landscape"

"The Jasco-Vercilia partnership combines IT consulting, to understand an organisation's needs, with the ability to automate workflows, create business apps and gain data insights through Office365," Michael Verso, CEO of Vercilia explains. "Working with Jasco Consulting means that we are now capable of expanding our reach and providing more value to customers across Australia."

Both Jasco Consulting and Vercilia are excited about this new partnership and the benefits it will bring to existing customers, and customers across Australia.
