

Jason Singh announces 2021 tour

One of Australia's best male vocalists, Jason Singh has announced his first tour since 2019, performing the hits of his band, Taxiride, along with his solo material and a selection of favourite classics throughout March and April, 2021.

Bringing two sets of solid 90s nostalgia across twelve cities and towns in Victoria, New South Wales and Queensland, Jason Singh plays Taxiride (Hits, Bits & Beyond) features the dynamic frontman in acoustic mode, with that his powerhouse vocals front and foremost.

Bidding wars, exotic overseas studios and years of international touring established Taxiride as one of Australia's biggest musical exports, with Jason Singh and his impressive set of pipes and sky scraping pop sensibility at the helm.

Garnering two consecutive Number One platinum selling albums, nine Top 40 hit singles including the Top 5 hits "Get Set", "Everywhere You Go", and the most played song on Australian radio in 2002, "Creepin' Up Slowly", Taxiride were at the top of the Australian music industry.

Twenty years later, including a hiatus, a reunion and an established solo career, it's time to join Jason Singh as he continues the 'Ride' in a series of shows taking you on a journey beyond the hits.

"I'm proud of everything I've done," Jason says, "Taxiride is where it all started for me. I'm excited about playing these shows and getting to play a collection of songs I've rarely, some never, played live."

The HITS BITS & BEYOND show will see Jason perform all the iconic hits along with material from deep within the Taxiride catalogue - including "Skin", "Saffron" and "World's Away".

With a studio album, a covers album and a string of singles including two dance club hits, Jason will also feature a variety of his solo material, which has seen him tour extensively with a long list of accomplished artists including Mariah Carey, Rick Astley, HANSON and John Farnham.

Stories, influences and insights from over 20 years of touring; you can be sure, as Jason Singh plays Taxiride, that each show is set to be a different ride.
