

# JetSkiBoats.Com.Au is the first online Jet Ski retailer to accept Bitcoin and other crypto currencies as payment and it has a 30% Sale Discount Campaign to celebrate it

Jetski Boats WA participates in liquidations and clearance auctions for personal watercrafts from US & Japan. We dedicate our time finding brand new older models of Kawasaki, Yamaha and Seadoo Jet Skis which we import to Australia and today we proudly announce the acceptance of crypto currencies like Bitcoin, Litecoin and many others for the items in stock.

Bitcoin is a digital currency that enables instant payments over the Internet. Unlike credit cards and PayPal, Bitcoin has no central authority and no way to lock entire countries out of the network. Merchants who accept Bitcoin payments can do business with anyone.

In order to promote the acceptance of crypto currencies we decided to start the Autumn Mega Sale Campaign which allows buyers interested to purchase any of the listed items at 30% discount. During this campaign we accept only Crypto Currencies.

We strongly believe we are the first Australian Jet Ski retailer accepting Crypto Currencies and we are really proud of our achievement.
