

John Morris Group partners with DEWETRON in the ANZ region

Sydney, Australia – The Industrial Division of the John Morris Group announced today that it has signed a distribution agreement with DEWETRON GmbH as a new professional representative for the data acquisition markets across Australia, New Zealand and South Pacific Islands.

John Morris Group is a privately owned, third generation family business spanning over sixty years. John Morris Group's Industrial Division has a growing team offering support and expertise in the test and measurement / condition monitoring equipment supply markets. With a strong presence in the ANZ region, John Morris Group will strengthen the promotion of DEWETRON solutions and system portfolio to R&D engineers and innovation experts.

Laurent Chalard, Sales Director at DEWETRON, said "Our distribution agreement with John Morris Group is giving us the next leverage of growth in one of the most important and driving markets in the ANZ region. John Morris Group's complete solution platform will place DEWETRON's brand in an extended leading position in the data acquisition market in the ANZ region"

"With DEWETRON's data acquisition solutions, we are pleased to expand our solutions offering, for our customers who would like to measure multiple inputs and sensor sources seamless and simultaneously, including digital signal sources such as digital video or digital buses. DEWETRON systems are so versatile and flexible, that we will be able to provide a solution to all our customers requesting high precision combined with a fully adapted solution for their specific environment" said Duncan McLeod, John Morris Group's Industrial Division Manager.

About John Morris Group

As providers of complete solutions for noise and vibration measurement and analysis, John Morris Group partners with the region's leading engineers and scientists to deliver solutions for the measurement of acceleration, force, load, pressure, shock, strain, torque, noise and vibration. John Morris Group has a proud family heritage spanning sixty years. We specialise in the supply, installation and servicing of technical instrumentation and consumables covering diverse industry sectors throughout Australia, New Zealand and the South Pacific region.
