

JURA Australia is thrilled to announce two new awards! Today, they have just been awarded Best Coffee Machine in the 2021 ProductReview.com.au Awards for their popular JURA S8 machine, plus they have also taken out the top position in Finder.com.au's Best Coffee Machine Fully-Automated category for their premium GIGA 6 - which earlier this year also won the Good Design Award for Product Design Domestic Appliances. George Liakatos, JURA Australia's Managing Director says, "We're so excited to announce these two new awards for our household category, especially as they are both based on real customer reviews and tried and tested by the experts. The Swiss engineering and attention to detail that goes into our fully-automated coffee machines are what really sets the brand apart from the competition. It's no surprise to us that both the S8 and GIGA 6 have been recognised by the Australia coffee-drinking community, both models have been extremely popular this year with these models selling quicker than we can get them instore." About the ProductReview.com.au Annual Awards: The ProductReview.com.au Annual Awards highlight products and services that have been well regarded by the ProductReview community. These awards are judged independently and impartially by the ProductReview Data and Content Team and awards cannot be bought, nor be influenced by commercial relationships. The winners represent the best and most reliable purchasing choices available to Australian consumers in 2020. The JURA S8 was awarded Winner of the Fully Automated Coffee Machine for 2021 due to the fact it scored a Star Score of 4.3 stars overall as well as the positive reviews posted during 2020. The S8 notably also scored 4.9 stars for its build quality, ease of use, and milk frothing. About Finder.com.au's Best Espresso and Coffee Machine list for 2020: Finder.com.au's 7 best espresso machines in Australia for a range of budgets are compiled by their editorial team selecting the products on the list based on actual customer reviews. For each category, they carefully selected parameters based on their research and identify the espresso machines with the highest review score within those parameters. Finder.com.au described the JURA GIGA 6 an ultra-automatic espresso machine with every bell and whistle you could possibly want. It makes 28 different types of coffee and has two grinders that can hold two different types of beans at once. Even though it's an automatic machine, the settings are fully customisable, so you can adjust the temperature, foam and strength of your coffee to get your perfect brew each time. JURA's range of fully automated coffee machines are available now online at [www.au.jura.com](http://www.au.jura.com) as well as selected independent and specialty outlets. About JURA: JURA's products stand for innovation, ease of use and sustainability. JURA believe in the perfect cup of coffee, using fresh beans, freshly ground and extracted at the touch of a button. The product range includes both machines for domestic use and professional models for the office and food service industry. In recent years the long-established Swiss brand has grown to become a global player, operating in around 50 countries.
