

Toasting bread might seem like one of the simplest kitchen tasks, but achieving even browning time after time can be frustratingly elusive.

Kambrook's new two and four slice Profile models offer a solution for every preference and provide a five-stage browning control to ensure evenly toasted bread. The toasters also feature re-heat, defrost and cancel settings as well as a self-centring function and extra wide toasting slots. For added practicality, a high lift lever allows toast to be removed without fingers touching the toaster and a removable crumb tray is included for easy cleaning. A stylish addition to the kitchen benchtop and great value for money, Kambrook's Profile toasters are also highly durable, having completed more than 500 hours of continuous testing. Kambrook KT250 Profile 2-Slice Toaster – RRP \$49.95 Kambrook KT450 Profile 4-Slice Toaster – RRP \$69.95 Enquiries: 1300 139 798 / [www.kambrook.com.au](http://www.kambrook.com.au) Media enquiries: Juliet Fisher or Kristine Snell, Write Away Communication + Events Ph: 02 9978 1400 / Email: [juliet@writeaway.com.au](mailto:juliet@writeaway.com.au); [kristine@writeaway.com.au](mailto:kristine@writeaway.com.au)
