

Linktech Australia partners with Google to demonstrate Single Sign-on efficiency and security for Healthcare sector

Visit [Victorian Healthcare Week Expo \(23–24 July 2019\)](#) to see demonstration

FOR IMMEDIATE RELEASE:

Linktech Australia partners with Google to provide Single Sign-on to enhance efficiency and security for Healthcare.

Melbourne, 22 July 2019 – With extensive experience delivering solutions in the healthcare sector, Linktech Australia will be demonstrating the benefits of digital workspaces and single sign-on (SSO) to healthcare professionals at the 9th annual Victorian Healthcare Week from 23–24 July 2019.

Healthcare organisations are under increasing pressure to reduce costs, while providing higher quality care. As a result, they are always looking for ways to streamline operations and increase clinician productivity.

Linktech Australia's SSO solution is purpose-built to streamline ease of access and clinician workflows, while reducing costs and complexity. When paired with Chrome devices, the solution enables Citrix users to access their mission-critical applications with the simple tap of a proximity badge.

This best-in-class proximity badge access solution improves efficiency and security. Linktech brings the ability to merge technologies like SSO, Chrome, and Citrix together to offer healthcare organisations with proximity badge access a solution that streamlines workplace systems and user experience, and can save staff 30 - 45 minutes a day; extra time which they can spend with patients.

Simon Sztajer, Sales Manager for Linktech Australia, said, 'the solution is perfect for reducing costs while also solving security concerns. I look forward to showing Victorian healthcare providers how to revolutionise the workplace.'

Linktech Australia will be presenting at the Victorian Healthcare Week Expo from 23–24 July 2019. The expo features more than 100 expert speaker presentations, case studies and debates over two days.

Linktech is an Australian-owned systems integrator that offers digital transformation, procurement, business systems architecture, professional and managed consulting services with offices in Melbourne and Sydney. Linktech takes a vendor-neutral approach to technology, working closely with Google and Citrix as well as Microsoft, HPE, Cisco, and VMware.

Victorian Healthcare Week 2019 allows attendees to connect and learn from people in different disciplines, including eHealth, Infrastructure, Aged Care, Disrupt Technology and Nursing. The Victorian Healthcare Week Expo takes place at the Melbourne Convention and Exhibition Centre, South Wharf, VIC 23-24 July 2019,

END
