

Local supply chain specialist FourPL and Q Data USA sign Partnering Agreement

FourPL and Q Data USA to collaborate on SAP Event Management and supply chain visibility solutions in ANZ

SYDNEY, Australia -FourPL announced today that it has signed a strategic partnering agreement for ANZ with Q Data USA, a North American based SAP implementation specialist. Q Data USA is a leader in the SAP Event Management and SAP Business Objects Event Insight field. For local ANZ SAP customers, the partnership offers opportunities to improve visibility and responsiveness in their supply chain, increase throughput and reduce risk around disruption.

Both FourPL and Q Data USA are SAP partners and the partnership is in place to share capability, customer experiences and investments in research, systems and IP.

“The partnership provides FourPL customers the option to extend their capability around SAP Event Management and in particular, to be able to offer their customers improved supply chain visibility and risk reduction options.” said Anthony Hawkins, Chief Executive Officer, FourPL. “The partnership provides global experiences and an extended customer network with access to learning’s from early adopters in mature overseas markets, thought leadership and knowledge sharing and extending the breadth of niche skills available to service customers. FourPL will continue to bring local Australian knowledge and experience to ensure solutions meet customer requirements.” Q Data USA have capability in training and education which will also assist customers in building support capability and self-reliance.

“It’s exciting to have found another company, in FourPL, with similar ideals and values to ours. Together we will continue to work and grow as the thought leaders in the SAP TM and SAP EM space by integrating these solutions to deliver even more value to our client’s supply chain initiatives” said Kevin Wilson, Event Visibility Practice Lead for Q Data USA’s SAP Event Management practice.

Q Data USA is a business solution provider for companies running SAP and other complex ERP initiatives. By changing behaviour and applying business rules that leave users with a complete understanding of end to end processes, Q Data USA assists companies in receiving a real return on their ERP investment. SAP Event Management projects, inspired by Q Data USA’s innovative approach, have proven to cut time and costs for various industries and customers like Insight Enterprises, Asics and HD Supply.

FourPL will continue to support industries with a core focus around manufacturing and distribution of products, such as CPG/FMCG, manufacturing, retail distribution, mining, and logistics providers.
