Cross Plumbing is a plumbing service offering unmatched plumbing service to customers in South Brisbane and Logan City.

Cross Plumbing is an Australian owned family business that has been in service for 37 years. The firm is also known as M.A. Cross Plumbing after the name of its owner Michael Cross. With 37 years in service the plumbing service has been able to understand the needs of local customers and common plumbing issues that generally crop up in their area of service.

With Christmas approaching and the Australian summers well and truly set in Cross Plumbing is renewing their commitment to providing customers the best in plumbing services. Cross Plumbing is now available for service on Sunday's in run up to Christmas.

Cross Plumbing is able to take any plumbing job! Be it plumbing installation, drain cleaning, repairs, roofing and guttering, rainwater tanks, toilet systems and taps or anything else. You can be rest assured of top quality plumbing services at all times. Crossing Plumbing is the best plumber in Logan as the firm are members of the Master Plumbers Association of Queensland.

Michael Cross, Owner of Cross Plumbing says, "We are licensed plumbers and drainers, we can supply environmentally sustainable plumbing and drainage solutions from the household to commercial properties. Our business has undertaken Green Plumbers training in water audit assessments for residential and commercial properties, waste water management and solar hot water systems. We are also experts in new homes and renovations."

The plumber Logan is also skilled in roofing, gutter systems, and leaf free gutter guards. The options eliminate the unpleasant task of cleaning the gutters, while ensuring that water is directed away from foundations and basements. Rain water runoff that falls close to the home can result in cracking and heaving that's expensive to repair.

M.A. Cross Plumbing offers free, no obligation quotes for plumbing-related needs to get drains and toilets flowing freely. The company is a one-stop resource for eco-friendly and cost effective solar hot water systems, along with roofing and gutters that aid in preventing damage to basements and foundations.
