

Memorial Jewelry

Loss of a loved one at such a young age

A lovely piece of Memorial Jewelry we did for a client I took a phone call today which was very humbling. A lady had been given one of our necklaces with her father engraved . She told me he had passed at this time when she was 21 and always struggled at this time of year. Her daughter brought her this gift and she was totally over the moon. She loved it. She explained to us that what we do is do really special and wasn't sure if we understood how special it really was. She mentioned it many times so I understood what she meant. She totally loved her piece of memorial jewelry.

We are so privileged to make people feel so special and it was such a beautiful phone call.

She kisses her piece every morning and it provides her comfort and love. Such a beautiful personalised gift to celebrate a life taken too soon.

We are very fortunate in that our clients really love our work and very often ring us and advise up that they love their piece. They often feel genuine comfort from the pieces and feel that that person is with them. Many people purchase necklaces and wear them most of the time. They feel like they are close to their heart. It is so very satisfying for us to know that our memorial jewelry pieces are able to provide the comfort our clients may need at this difficult time.

Thank you to all our clients for there wonderful stories and beautiful words .
