

# Moore Global appoints David Tomasi, Moore Australia (WA), as new global leader

Moore Global, one of the world's leading accountancy and advisory networks, has today announced five of its sector leaders have been appointed Global Leaders. As part of this group, David Tomasi, Managing Partner for Moore Australia (WA), has been appointed Global Leader, Energy, Mining, and Renewables.

These newly created roles support Moore Global's continued growth strategy and emphasise the business's plans to strengthen its global leadership position in key sectors around the world.

In addition to Mr Tomasi, forming the new team of five Global Leaders are;

Mr Dan Natale, Managing Partner, Segal LLP - Global Leader, Real Estate and Construction  
Mr Graham Tyler, Chairman, Moore Kingston Smith - Global Leader, Media  
Mr Mark Fagan, Partner, Citrin Cooperman & Company LLP - Global Leader, Manufacturing and Distribution  
Mr Costas Constantinou, Managing Partner, Moore Greece - Global Leader, Maritime  
As principal experts, Mr Tomasi and the other Global Leaders will work alongside the 600 plus industry group members and be responsible for promoting and positioning the sectors within the market, driving sector growth and supporting collaboration within the network.

Commenting on the announcement, Anton Colella, Global CEO, Moore Global, said: "At the heart of our strategy, we aim to be the world's most respected professional services network and to drive that business strategy forward and lead our global community, we need an exceptional leadership team.

David has already proven his dedication to supporting our business growth and I'm confident that within his new role, he will continue to shape our business, helping our clients and the wider Moore Global team tackle the key challenges of modern business, and ultimately help them thrive."

Commenting on his new role, David Tomasi, said: "I look forward to leading this sector group and working with my talented colleagues from around the globe, especially at a time when the challenge for Energy, Mining and Renewables has never been greater."
