

Motorola RAZR i - Intel-powered Android Smartphone with 4.3-inch Screen and 8MP Camera

Now available unlocked and online

Motorola RAZR i is the newest full-screen smartphone handset by the Google owned company. It has now arrived into stock and is available for purchase from MobiCity, Australia's premiere online mobile phone store.

The phone is made of premium quality materials and boasts a rectangular slab-form design. Its frame is made of aircraft-grade aluminium while its back is coated with Dupont KEVLAR fiber making it very durable. The phone has a patterned back that looks very elegant. It models a 4.3-inch Super AMOLED Advanced qHD capacitive touchscreen display that comes with Corning Gorilla Glass for protection and scratch resistance.

Motorola RAZR i is the first Intel powered smartphone. It operates on an Intel Atom processor with an impressive clock rate of 2.0GHz and 1GB RAM. Powered by Android OS v4.0 (Ice Cream Sandwich), it gives full access to Google Play where users can download thousands of apps, games, magazines and much more. The phone comes with 8GB of internal memory which can be extended up to 32GB via microSD memory card.

The device features a very powerful 8.0 Megapixel primary autofocus camera that launches almost instantaneously. It allows taking up to 10 photos in a second in multi-shot mode and provides a digital zoom of 4x. There are a variety of imaging tools available for the camera such as cropping, geo-tagging, red eye removal and photo effects. A built-in flash is provided to aid photography in the dark. There is also a front VGA camera available for video chat.

Other key features of the phone include - 3G & dual band Wi-Fi connectivity, 3G hotspot, Bluetooth v2.1 with A2DP & EDR, USB 2.0, GPS, eCompass, multitouch screen, Google voice type and commands, Swype, proximity sensor, ambient light sensor, accelerometer and a 2000mAh Li-Ion battery with built-in SMARTACTIONS app for power management.

Motorola RAZR i comes with a 12-month local warranty. It can be purchased now from MobiCity.
