

Network Pacific Strata Management News Update

Network Pacific Group of Companies celebrates 25 Years in Business

Network Pacific Group of Companies is proud to celebrate 25 years in business. This milestone provides us with an opportunity to both reflect on our past and look forward to our future.

Since opening our doors in 1994, Network Pacific Group of Companies has grown to be one of Australia's leading property companies. Today the company has 72 staff members and manages over \$5 billion worth of assets for over 20,000 clients worldwide.

Fostering a culture of innovation, excellence and continuous improvement has led to the establishment of ten affiliated companies. These include strata management, real estate sales and property management, essential services compliance, facilities management, building repairs and maintenance, ShareCar communal car use, Carparklock to prevent unauthorised parking, and building supplies at wholesale prices.

Our value-added services allow us to take care of all aspects of our clients' property, maintenance and compliance needs. This unique one-stop-shop approach means our clients need only deal with one company, saving valuable time and money.

In 2017, we attained ISO 9001:2015 Quality Assurance Certification. This is an internationally recognised certification which we are extremely proud to have received. Our quality management system allows us to monitor quality across all of our operations and ensure our business processes meet our clients' needs.

Our focus on service excellence and continuous improvement has led to numerous state and national business awards over the years. Our hard working and dedicated team received 20 awards in 2018 alone!

We are excited to celebrate this silver anniversary and look forward to working with our clients, staff and valued stakeholders over the next 25 years.
