

New Charcoal Bamboo Face Mask by L'Action

New Charcoal Bamboo Face Mask Creating beauty moments to make you feel good Media Release - August 2019 As winter wraps up and warmer weather is approaching, now is the time to freshen up your face and introduce regular face masks to combat skincare troubles. L'Action Paris has developed a Charcoal Bamboo Sheet Face Mask which leaves your skin fresh and glowing. CEO of McGloins Supertex, Nick Barnes says, "This face mask is perfect for rebalancing your skin and kick starting great skin care. The active ingredient includes charcoal which absorbs excess sebum, leaving you with a post day spa glow." The Charcoal Bamboo Sheet Face Mask rebalances combination to oily skin with sebum-absorbing charcoal to tighten pores and improve skin elasticity. Apply the mask to clean, dry skin for 15 minutes for optimum results. Leave the mask on for 15 minutes before delicately removing the mask and lightly tapping your face for optimal absorption. Implementing the mask into your routine 2 – 3 times per week will help improve your skin elasticity, tighten pores and leave you with a clean, glowing complexion. About L'Action Currently sold in over 40 countries on four continents around the world, there are over 50 different products that are available in Australia. All products in the collection include natural active ingredients, are developed in their Paris laboratory, are dermatologically tested and are NOT tested on animals. The new L'Action Paris Charcoal Bamboo Face Mask is available online for RRP \$4.95. www.mcgloins-supertex.com.au @lactionparis_au
