

NEW Liquid Lumiere Mineral Illuminiser

Adorn Cosmetic's inimitable, NEW pure mineral Liquid Lumiere Mineral Illuminiser is a multi-functional, natural looking peachy gold highlighter that emulates the radiance of healthy skin, enhancing it with a gorgeous, non-toxic glow.

Adorn Cosmetic's inimitable, NEW pure mineral Liquid Lumiere Mineral Illuminiser is a multi-functional, natural looking peachy gold highlighter that emulates the radiance of healthy skin, enhancing it with a gorgeous, non-toxic glow.

Made with 100% pure minerals, it's not only super long wearing, but also super long lasting. A little of Adorn's new Liquid Lumiere Mineral Illuminiser will go a very long way - outlasting other mineral products that claim to be natural, but use cheap bulking agents and fillers.

A multi-purpose superstar, it can be worn alone for effortless, on-the-go beauty to enhance skin's natural radiance and a healthier looking complexion.

It can also be gently buffed into the skin with Adorn's Cruelty Free Kabuki Brush, and either Adorn's Hydration+ Skin Primer & Moisturiser fragranced with Rosewater, or Anti Ageing Loose Mineral Foundation.

For added highlight, emphasise specific areas such as temples, cheekbones, middle of the forehead, under brows, collar bones, or lip bow for fuller lips.

Adorn's Liquid Lumiere Mineral Illuminiser is also cruelty free, Vegan certified, and free from Palm Oil, Mineral Oils, parabens, petrochemicals, sulfates, nano particles, synthetic fragrances and colours, and skin irritating fillers such as Talc, Rice Powder, Clay and Itchy Bismuth.
