

# Nintex Recognised as Leader in G2 Enterprise Grid Reports for 3rd Consecutive Year

Latest G2 Grid Reports rank Nintex a leader in BPM, No-Code Dev Platforms and Rapid App Development

MELBOURNE—21 April 2021—Nintex, the global standard for process management and automation, today announced that the powerful and easy-to-use capabilities of the Nintex Process Platform have once again achieved leader rankings in multiple G2 Grid® Reports including: Business Process Management (BPM), No-Code Development Platforms, and Rapid Application Development (RAD).

Request a live demo of the Nintex Process Platform by visiting <https://www.nintex.com/request-demo>. The G2 Grid processes aggregate information from customer reviews to score software technology offerings by market presence, sentiment, and usability. Enterprises looking to acquire new technology can filter information provided in G2 Grid reports. Spring 2021 is the 12th consecutive quarter Nintex has been recognised in the G2 Enterprise Grid. Nintex has also received consistent recognition in the G2 Grid for mid-market and small business segments.

"To receive G2 leadership rankings for our suite of software solutions year-after-year is very rewarding for every team member at Nintex," says Nintex CEO Eric Johnson. "This is especially true for our product and engineering teams who are passionate about delivering digital process automation capabilities that are both powerful and easy to use. Feedback from our global community, those customers and partners that leverage Nintex every day, helps us to prioritise where we will invest next and how we will extend our platform capabilities to meet our customers' digital transformation needs."

Today more than 10,000 leading organisations in every industry are automating work and improving business processes with Nintex. Many of these customers have shared their experiences on G2, posting more than 1,000 reviews about how their organisations are driving process efficiency and delivering measurable business impact with Nintex Promapp®, Nintex Workflow, Nintex Forms, Nintex RPA, and more. Customer reviews from enterprise users include:

Document critical business processes

"[Nintex] Promapp guides users through digitally documented processes and reveals areas for process improvement." Easy and powerful

"With Nintex RPA the complex tasks become simpler." Get started right away

"The reason for selecting Nintex in our organisation was very simple, it is easy to use." Time savings with digital forms

"We have done 2 years' worth of work in 3 weeks using Nintex Forms." The productivity platform

"Definitely consider [the Nintex platform] if you want to increase the productivity in your organisation." To learn more about how organisations have standardised on Nintex for their process management and automation needs, visit <https://www.nintex.com/using-nintex/case-studies/>.
