

# NU Racing Formula SAE team talks race car design.

NU Racing is the Formula SAE team from Newcastle University in NSW, Students are required to build a open seat race car to a specified rule in a specific time frame, They then compete against other Universities from around Australia for the Formula SAE title.

"The SAE-A hosts the annual Formula SAE-A event. This is a 3 day international, student engineering competition centered on the design, construction and racing of an internal combustion or electric race car up to 600cc/80kW. The competition presents students with the opportunity to develop their skills in design, management, manufacturing, communication, research and business operations in a real world environment. Formula Students are highly sought after across the engineering mobility industry."- SAE Australia

In this video NU Racing give a brief insight into Formula SAE and talk about their design process and related technology.
