OPEN LETTER TO THE AUSTRALIAN PUBLIC FROM DEBBIE BLACK, CHAIRMAN, BIONIC AIR PTY LTD REGARDING MISLEADING ARTICLES  
IN THE AGE & SMH NEWSPAPERS & ONLINE

Article appeared on Page 9 of Saturday's The Age on 29/8/20 and online in the Sydney Morning Herald , The Age, Brisbane Times and WA Today.

"The Bionic Air Plasma Medicine Device combined with Quantum Physics produces 'Therapeutic Air Ions'. It is registered with the TGA. There are over 1,000,000 (one million) Australians' using this device, over the past 53 years. No recalls. No reportable negative consumer complaints. Made in Australia. Its efficacy is beyond reproach. It's a genuine advanced sciences medical device for human health for all ages and comorbidities." said Debbie Black. BionicAir.com.au

The device has been registered with the TGA since the 1970's, not since 2010 as The Age & SMH articles reported.

It's registered to assist in recovery from illness, reduce the severity and frequency of colds and flu, support and assist immune system recovery and assist breathing by reducing airborne pathogens and dust, plus more. An independent study in 2009 on 973 long term users, reported 95% of users experience less colds and flu. A similar study is underway in 2020, with 96% of users reporting the same experience.

At no stage has Bionic Air Pty Ltd claimed that this device cures or prevents COVID19. Yes it was used on positively diagnosed virus patients in Wuhan, on a compassionate basis. No users deteriorated. It has no clinical research on COVID19 as yet, however, esteemed Australian Professors are currently planning for this. The TGA will then be provided that report to review. Because the TGA has not reviewed results as yet, the journalist was asked not to publish these matters. But he did.
