

# Port Lincoln Security Company Critique Concludes '5 Stars Service'

Eyre Peninsula Security releases its complete and unbiased write up and review of its security services in the eyes of a local and reaffirms its commitment to truthful, honest reviews.

Earlier today, security company Eyre Peninsula Security published a thorough and unbiased consumer review of security services in Port Lincoln from a local resident on their GMB page. The conclusion being that while it excels at always willing to help the locals, the security services unfortunately lose points from being extremely low priced.

While other lower quality consumer review sites often focus solely on promoting just the good qualities of a product in order to make affiliate sales, Eyre Peninsula Security's GMB page strives to tell the complete story.

Kevin Pearce, Operations Manager at Eyre Peninsula Security said "Our reputation is extremely important to us. If we do not tell the truth, we serve no purpose. If people cannot trust us, then more people will be taken advantage of, paying for poorer quality of services. That's why we don't hold back."

The following extract makes a good summary of the review:

I recommend Eyre Peninsula Security to anybody that needs security for their business or home. Kevin has Port Lincoln security covered, is extremely knowledgeable and always happy to help.

Eyre Peninsula Security was created by Kevin Pearce in 2020. Kevin Pearce got the idea for the business when a need for an honest security company was called for in Port Lincoln.

Since it was first created, Eyre Peninsula Security has 1 review on their Google My Business page in the security market and always aims to provide an aura of legitimacy and trust, with its reviews.

Kevin Pearce also adds "For any consumer wanting to check the legitimacy of a review, or know if they can trust the source, I advise you to check facts."

Eyre Peninsula Security's complete and unbiased write up and review by one of their happy clients of their security services can be found at <https://www.google.com/maps?cid=4671723030785327132>
