

Ripple leaves no stone unturned this winter

Hot stone massage on your doorstep

It's cold ..raining ..

windy ..

and the last thing you want to do is walk out your front door, get in the car and drive to the day spa for your massage.

Luckily, Ripple is less than a stone's throw away and will bring all the delights of the day spa, right to your front door. More information is at <http://www.ripplemassage.com.au/hot-stone-massage-gold-coast-tamborine-brisbane.html>

"Winter is a busy time for us, with our guests wanting to stay cocooned in their home or accommodation, but still want the luxury of day spa treatments." said Alison Shaw, the owner of Ripple Massage.

"Ripple was the first company in Australia that decided to offer much more than a mobile massage service, and instead bring all the amazing day spa treatments to the client."

"We pioneered the day-spa-to-you concept and still are the only business in Australia that offers such a wide range of unique and delicious massage styles on a mobile basis," she continued. "There is no other company that offers hot stone massage, deep tissue Russian, seashell, chocolate or honey massages as a mobile service."

"One of the favourites in winter is our hot stone massage. Incorporating volcanic rocks with divine aromatherapy oils, this massage is like having two really warm hands massage your entire body, unlocking the stress in the muscles and warming you at the same time."

"Also winter can be particularly harsh on the skin, I know my legs sometimes end up looking like lizard skin! The hydrating essential oils we use at Ripple help to fight the symptoms of winter and soothe dry and wind damage skin."

Ripple provides a unique mobile day spa service to women, men and couples throughout the Gold Coast, Mt Tamborine, Brisbane, Sunshine Coast, Byron Bay, Melbourne, Mornington Peninsula, Geelong, Dandenongs, Great Ocean Road and Yarra Valley regions. Also all Sydney, Tasmania and ACT.
