Dinga, a premium online fishing tackle store in Australia, presents Rovex Alliance Spin fishing reels, the latest 5000 and 6000 sizes. Cheaper prices.

Free shipping. Quick delivery!

You can't miss the striking white, silver and gold design of Rovex Alliance spin reels. The popularity of this attractive series has seen the introduction of two larger sizes: the new Alliance 5000 and 6000, rounding out plenty of fishing options in this range, all the way down to the sporty 1000 size.

The new 5000 and 6000 size Alliance reels hold 284yd of 20lb mono and 306yd of 25lb mono respectively. Both new reels have a tough 4.1:1 gear ratio.

Rovex Alliance spin reels back-up the good looks with tough fish-fighting features such as a five ball bearing system, infinite anti-reverse, stainless steel main shaft, quality alloy gearing and a smooth multi-disc drag.

The strong-yet-lightweight graphite body is matched with a machined alloy spool featuring a long-cast design, plus there's a thick tubular bail wire and machined alloy handle. The line roller is designed to minimise line twist and now the range has been extended to six sizes from 1000 to 6000, you're sure to be equipped to handle any style of inshore, beach, estuary and freshwater fishing.
