

RTL Plumbing becomes RTL Trades

Fresh name and new services

It is with great excitement that we can share with you today the culmination of a great deal of hard work and effort from our office team which has resulted in the successful restructure and rebranding of the company you know and trust so well from RTL Plumbing to RTL Trades.

As many of you will already be aware, we decided some time ago that changes needed to be made in order for our Company to continue to grow and be successful. What started as a an open table discussion on the direction of our business has lead us to this point where we have taken the rather large, and at times daunting & difficult, decision to completely restructure and rebrand our Company.

Why the change? To make it easier on our new and existing customers by knowing one call can be made or one email can be sent and whatever issue/s they have will be addressed and resolved swiftly and in a professional manner.

We believe we can continue to provide the same exceptional quality & service that RTL Plumbing has been providing to South East Queensland for the last 70 + years in other areas of the trade sector. While there are no immediate plans in the works, the restructure will allow us to add different trade disciplines including but not limited to: Electrical, HVAC, Roof & Wall Cladding, Carpentry & Handyman Services etc. in the future.

Our aim is to be one of South East Queensland's largest multi-faceted solutions provider for all things trade related, while still maintaining our core values of integrity, honesty & accountability as well as continuing to provide the same exceptional customer service that you have come to know and rely on so well.

We thank you for your support in assisting us with this changeover and look forward to continuing to build and strengthen our relationship with you in to the future.

Kind regards,

Mick Bradley

RTL Trades General Manager
