Finalists delivered exemplary solutions to customers and demonstrated significant customer impact, originality, effective time-to-market, deployment of advanced features, and the ability to optimise their use of Microsoft technologies to meet business needs. Satyam BPO Ranked No. 2 Global BPO vendorSatyam BPO has been ranked second among the world's leading BPO vendors in Brown-Wilson Group's Black Book of Outsourcing. Satyam BPO also ranked fourth on the Knowledge Process Outsourcing Vendors list. More than 4,000 organisations were evaluated in compiling the lists. For the third consecutive year, Satyam BPO has been ranked among the top 10 in Brown-Wilson Group's Black Book of Outsourcing. In 2007 and 2006, Satyam BPO had been ranked in several categories such as FAO, KPO and Energy and Utilities. It also won two prestigious Six Sigma IQ Excellence Awards—for Best Defect Elimination in Service & Transaction and Best Design for Six Sigma. Business Highlights Satyam endeavours to increase its footprint in new geographies while enhancing its capabilities in strategic industries and services. Several of our new Q1 engagements reflect this approach; they are summarised here. Satyam announced the successful go-live of the end-to-end enterprise data warehouse (EDW) implementation project for one of its strategic customers in the telecom space. The success through this engagement marks one of the first real enterprise data warehouse solutions built ground-up, and one of the largest and most complex data warehouse implementations in the world. Satyam undertook end-to-end planning and execution of this program, thereby

generating immense business value for the customer. Bridge Strategy Group, a Satyam company, helped a US-based electric utility with an acquisition, due diligence and integration planning of a regional utility with more than one million customers. The acquisition will transform power utilities in the Midwest region of the US. Citisoft, a Satyam company, partnered one of the largest independent global investment management firms to frame the business drivers, vision and objectives for a Global Equity Platform (GEP) implementation project. The Satyam team proposed an equity systems model that highlighted advantages of a single equity platform and its potential cost savings. Satyam is leveraging its full suite of end-to-end offerings to design a complete avionics system for a new generation of planes. The Aircraft Data Acquisition and Recording System project calls for a line replaceable unit and a complete avionics system that comply with FAA standards. Satyam helped a global consumer packaged goods company analyse the process gaps in its efforts to establish a process framework for its global and regional IT ecosystem. The framework has increased reliability, process compliance and standardisation of business processes. A leading Indian Bank has entrusted the task of customising and implementing a treasury management system to automate the client's treasury operations. The system will enable the bank to close all trades accurately, reduce turnaround time and comply with local reporting requirements. Satyam facilitated the strengthening of capabilities, brand and values of Loyalty Programs for the world's leading Australian carrier. Satyam also enhanced their information capabilities to enrich the on-line shopping experience for their customers. Satyam Named SAP Global PartnerSAP has named Satyam a Global Services Partner, a distinction that means the company helps Fortune 1000 companies reliably and rapidly implement SAP solutions and transform business processes. Satyam, with one of the world's largest SAP practices, joins a select group of large consultancies in the partnership, which is designed to enhance customer investments in SAP solutions. Satyam Wins SAP Pinnacle AwardSatyam earned an SAP Pinnacle Award in the Ecosystem Expansion Category. Pinnacle Awards are granted to leading SAP partners who have excelled at enhancing the customer experience and addressing critical issues, such as accelerating innovation and improving return on investment. Award recipients develop partnerships with SAP and mutual business by providing high quality products, solutions and services to customers.
