

# See, try & buy at the Melbourne Home Show

New features in 2017!

Thousands of Melbourne home owners, renovators and local trade are set to visit the Melbourne Home Show this August at the Melbourne Exhibition Centre, Southbank.

Held over four days from Thursday 17 - Sunday 20 August, over 300 exhibitors will showcase the latest products for kitchens, bathrooms, interiors and outdoor living.

Visitors can get the best interiors advice at the HOME Living Hub Seminar Stage. Leading experts including The Living Room's Barry DuBois, Darren Palmer from Hafele, the Victorian State Government and more will present informative seminars to educate renovators and builders. Plus, the stage will be surrounded by individually decorated Design Rooms to inspire and delight!

For visitors seeking expert advice, the KBDi Ask an Expert area will feature free 20-minute consultations with leading Kitchen & Bathroom experts. Make an appointment online or at the Show.

The Ryobi Make+Take workshops are back, offering visitors a chance to put their DIY skills to the test...and take their project home with them!

The 2017 Show promises to excite with two NEW features. The Energy Efficiency Hub will offer four zones to help you increase the energy efficiency of your entire lifestyle PLUS a daily seminar schedule filled with expert advice. The innovative Tiny Living Feature will offer creative solutions and the best options for downsizing! With the introduction of these features, visitors will have access to great resources for learning how to live large without sacrificing the planet!

Home Show attendance across the country is up by an average of 5%, so the Show is set to be a popular destination for renovators and builders looking to find expert advice, new products, Show specials and inspiration all under one roof.

"The Show gives visitors and trade the opportunity to source the latest products and services for their project, get great Show specials and see the best companies in Melbourne, all in one place and in one weekend", McGovern explains.
