

# SharpDrive Say 'Bring Your Own Flavour, We Provide the Course

With SharpDrive's customised branding option you are provided with the opportunity to brand the e-learning portal with your own company logo, as well as your very own customised welcome video which will be a central feature staff will see as soon as they login. Pricing for this option is \$1,500 +GST\* (\*client to provide own video).

## Video Message for YOUR Staff

As an example of it's use the video message for your staff could be a video of your CEO or Health & Safety Manager advocating your organisation's Health & Safety polices, as well as any other information you wish to share with staff prior to their starting the driver training course. (nb: client to provide own video; alternatively SharpDrive can arrange this video on your behalf - POA).

You might have a specific Health & Safety topic you'd like included with the course and SharpDrive can create a tailor-made training module catering to your organisation's specific need, i.e. towing trailers, weight limits for trade vehicles, safe practices with roof racks, and extra considerations for operators of large vehicles.

If you're interested in learning more about having SharpDrive 'bring your flavour' to their courses, drop them a line through their online form.

SharpDrive offer custom welcome videos, custom branding and custom training modules to meet your fleet's specific training and branding needs, so for more information on driver safety online courses, online driving courses Melbourne and online safety driving courses please go to <http://www.sharpdrive.co/> .
