

# Skin Care Without The Cover-up

New natural skincare range has nothing to hide

“Natural skincare” is the latest buzzword in the beauty industry, but a closer look at the labels on many products touting the use of natural ingredients reveals that many still contain synthetic chemicals and artificial elements.

With a conscience that goes more than skin-deep, Australian company, Embalm Skincare, have released a new boutique skincare range which is genuinely made from 100% natural ingredients. The entire range is free from any animal products or chemicals such as sulphates and parabens, both widely recognised skin irritants.

Vegan-friendly, each product is made in Australia from 100% natural skin care ingredients, and it goes without saying that none of the products are tested on animals.

The Embalm Skincare range is based on ancient, proven principles of skin care, combined with today's knowledge to create premium quality skincare products, which use only the most natural and beneficial ingredients for your skin.

Embalm believes in the therapeutic powers of nature and the Embalm Skincare products are filled with plant-derived nutrients to naturally preserve and rejuvenate your skin.

The Embalm Skincare range consists of five products:

**2-in-1 Cleanser & Toner:** A luxurious daily 2-in-1 Cleanser & Toner boosts the recovery of the skin's natural moisture and elasticity. Antioxidants in combination with natural Cupuacu butter leave the skin soft, smooth and radiant while also gently removing oil, dirt, make-up and surface impurities from the skin.

**Face Cream:** Daily Face Cream to improve skin rejuvenation and promote natural, radiant glow. Green tea extract, rosehip, wheat germ oil and vitamin E lock in moisture, helping to restore elasticity and promote healthy looking skin. Ideal for the daily care of all skin types.

**Body Lotion:** A beneficial blend of Shea butter, rice bran oil and vitamin E soothes and stimulates the appearance of the skin while cocoa butter nourishes and softens the skin.

**Hand Cream:** Easily absorbed, this nutrient-rich cream softens the skin and provides instant protection from the elements and relief to dry skin.

**Lip Balm:** Soothes, softens and conditions dry lips. Made with vitamin E to prevent dry and chapped lips.

Embalm is more than beauty; it's about preserving and protecting your skin naturally.

The full product range is available online. For further information about Embalm Skincare please visit [www.EmbalmSkincare.com.au](http://www.EmbalmSkincare.com.au)
