

SkyFoundry appoints Conserve It as VAD for Italy

Conserve It is excited to announce that it has been appointed as SkyFoundry's Value Added Distributor (VAD) for Italy as part of their recently announced expansion to Europe and the Middle East.

As the SkyFoundry VAD for Italy, Conserve It provides SkySpark sales and support services for both Systems Integrators and End Users in the Italian market including integration with data sources, analytic rule development and integration with third party applications.

Conserve It has been highly successful as SkyFoundry's VAD for Australia and the Oceania region since joining the SkyFoundry reseller community in 2011. They have deep experience with SkySpark, and extensive experience in building automation, energy efficiency and central plant design and control.

SkyFoundry are excited to welcome Conserve It SrL to the growing SkyFoundry community where they join our EU-based VADs including Akbin (Turkey), Cimpro (Benelux), Forest Rock (UK), GC5 (Poland), ITEC (Switzerland), and Sensitive Data (Spain).
