

# Small Tasmanian Brand Among Top Players in National Award

## Embalm Skincare “Highly Commended” In 2017 Awards

Tasmanian-based brand Embalm Skincare is celebrating after one of its products has been recognised as top favourite natural beauty product.

The Luxurious Face Cream has been “highly commended” in the 2017 Nature & Health Beauty Awards, just a year after Embalm Skincare’s Hydrating Hand & Body Wash was recognised as a “top product” for 2016.

The product, which locks in moisture and restores elasticity, contains a range of effective and natural ingredients. Green tea extract, rosehip, wheat germ oil, lavender, chamomile and vitamin E all contribute to rejuvenating skin and creating a natural, radiant glow.

The Embalm Skincare brand was created by Mel Driver, who uses her knowledge of ancient and traditional techniques, to provide the most effective beauty products that are kind to skin and the environment.

Speaking of the award, Mel said “It’s such an honour and privilege to be recognised by top beauty experts and to have our products chosen and named alongside big brands as the very best natural beauty products. I am delighted that Embalm Skincare has been recognised once again in the Nature & Health Beauty Awards”.

The 50ml product is available to buy online at [www.embalmskincare.com.au](http://www.embalmskincare.com.au), priced at \$37.95.

2016 continues to be an exciting year for Embalm Skincare, as the brand continues to enjoy interest and enquiries from around the world. Embalm Skincare’s network of stockists has also enjoyed growth, with month-on-month increases in this area since the August rebrand.

### About Nature & Health Magazine

Nature & Health is a highly regarded, trusted resource for those who are passionate about their health. The publication helps readers to improve their health and improve wellbeing, guiding them towards the latest and most trusted products, as well as offering advice on living a balanced and fulfilling life.
