

Some Seedsational News

Just released

Life...it is hectic, rushed, we want foods that are quick, easy, tasty but are also better for us at the same time. But when we are in a hurry, how can we trust that what we buy is truly healthy, even when it says so.

Seedsations has just released: Our Roasted Watermelon seeds come with either a hint of salt, or a hint of maple... Each tin has 80grams of goodness.

Perfect for sprinkling on pastas, salads, yoghurts, cereals, granolas..or JUST EAT THEM STRAIGHT FROM THE TIN.

Each of our tins have easy to remove labels..so you can reuse your tin for anything in your home.

In the muesli bar section, and health food section of supermarkets, most of us look and think...how simple, how easy is this in a packed-lunch, or to carry and eat on the go. But are they really all that healthy?

Many of these products are full of potential allergens such as nuts and dairy, high in sugars and have ingredients that we can't even pronounce.

With our Seedsational Watermelon Seed Snacks we are going to change Snacking forever.

Our aim is to bring our bodies and minds to life with our pure, nutritious and flavoursome Watermelon Seed Bars and snacks.

After spending months testing, tasting and standing firm in our desire for our products to be plant-based, simple and using real ingredients, we have perfected a range of Watermelon Seed Bars and Roasted Seed Snacks. Crunchy, munchy and SEEDSATIONALLY SCRUMPTIOUS.

Our bars come in three flavours, original, apple pie, and pumpkin spice using real Tasmanian apples and Tasmanian pumpkin, with natural flavourings.

AND IT GETS EVEN BETTER

Our snacks are full of vitamins and minerals including nearly half your daily magnesium needs – to build and maintain a healthy immune system and psychological well-being, they are a great source of protein and iron, plus they are allergen free.

Not only are the products Seedsationally nutritious, they are Seedsationally scrumptious as well. No need to take our word for it, consumers say so too, eg. Brooke from Hobart who messaged us 'Your bars help me get through the day, I am more energetic, and being so busy with my job and my 2 kids the bars are perfect on the go!'

We were also finalists in the Startup category in the Nationwide Food and beverage awards 2020.
