

## SpaScriptions release new & affordable facial serums

SpaScriptions are excited to introduce their new serum range to their ever-growing skincare range in Australia. Combining nature and science for skincare solutions designed to target specific skincare needs, the new retinol and collagen facial serums provided anti-aging skin repair for all skin types at an affordable price of just \$17.99. Erica Galea, Chemcorp International Marketing Director and distributor of SpaScriptions in Australia says, "Our SpaScriptions range of products have been developed by an expert team of researchers and chemists. Combining advanced technology with high-quality ingredients, this skincare range has been designed to fit into your existing skincare routine." SpaScriptions RETINOL Facial Serum: This deep penetrating and moisturising facial serum is formulated with retinol to help minimise expression lines and wrinkles, boost cell renewal and delay the effects of skin aging. Recommended for daily use to promote skin firming, even skin tone and minimise fine lines and wrinkles. SpaScriptions COLLAGEN Facial Serum: Proven to improve the health and appearance of skin, this moisture-rich formula contains collagen proteins and essential fatty acids. The ingredients help revive skin elasticity and minimise the appearance of fine lines, wrinkles and crow's feet. For younger-looking skin it is recommended to use the serum daily at both morning and night to help the skin to feel soft smooth and look radiant. The new SpaScriptions Facial Serums are available now in-store at Big W or online at [spascriptions.com.au](http://spascriptions.com.au) at an RRP of \$17.99. Follow them @spascriptions.australia.
